I appreciate your sharing the letter and am hopeful it can be sent to all SLAs.

I expect SLAs will get questions from registrants or at least hear about the letter and it would be better to get it directly from EPA. It can certainly be easily distributed through AAPCO. As we discussed, as this project unfolds, I am happy to assist.

Friday was quiet and unfortunately there were a number of folks I didn't get to see before I left. It was a pleasure to work with you as always and I appreciate you letting me tag along. I enjoyed the week very much and look forward to September.

Hope you had a good day.

Thank you again.

LF

Hi Liza:

I'm sorry I didn't get a chance to say good bye to you Friday. I was concentrating on resolving the issues and comments in the attached letter (too many eyes on it!) and I had to call Canada, etc. I thought I would share the letter with you since you heard about portions of it. It went out to the companies earlier today. I haven't shared it with any other SLAs but it's not a secret and I guess I should go ask Lois if I should send it to Steve Dwinell. But – you were here so you get the first look at it.

See you in September,

Meredith
